

MAHENDRA BAGHEL

📍 Gwalior, MP, India ✉️ msb10102005@gmail.com ☎️ +917828628592 📠 in/mahendra-baghel-665989249 🌐 github.com/mahendra7828

SUMMARY

AI/ML Engineer with hands-on experience in Machine Learning, Deep Learning, NLP, Data Analytics, and Intelligent Automation. Developed end-to-end ML solutions using Python, TensorFlow, PyTorch, Scikit-Learn, and BERT. Experienced through Google Developer Program, Alteryx SparkED, and SS&C Blue Prism internships. Strong foundation in predictive modeling, data pipelines.

EXPERIENCE

AI/ML Intern – India Edu Program

Google for developer

July 2024 – September 2024, India

- Implemented ML models using Scikit-Learn, Pandas, NumPy.
- Built projects like house price prediction.
- Explored supervised and unsupervised learning in Google Colab.

SparkED Data Analytics Intern

Alteryx

April 2024 – June 2026, India

- Built ETL workflows in Alteryx Designer for data cleaning, transformation, and reporting automation.
- Automated recurring data validation processes using Alteryx macros, streamlining cross-departmental reporting.
- Devised robust data parsing routines within Alteryx Designer to standardize disparate data sets.

Intelligent Automation Intern

SS&C BluePrism

September 2023 – November 2023, India

- Developed RPA bots using Blue Prism's Process Studio to automate routine business tasks.
- Enhanced business process efficiency by integrating advanced automation solutions within Blue Prism.
- Tested and validated Blue Prism automations across diverse business scenarios, ensuring compliance & standards.

PROJECT

Sentiment analysis

INDIA • github.com/mahendra7828

- BART model used to generate summaries of conversational text from SAMsum dataset, aiming to enhance the efficiency and accuracy.
- Performed tokenization, text normalization on the dataset to ensure compatibility with the model.
- Engineered a sentiment analysis pipeline leveraging advanced natural language processing techniques to accurately classify and interpret user opinion.

Sign language translator

INDIA • github.com/mahendra7828

- Engineered a sign language translation system leveraging real-time video processing.
- The sign language translator, significantly broadening accessibility for diverse user groups.

Heart Disease Analysis

INDIA • github.com/mahendra7828

- Developed a classification model to predict heart disease using Logistic Regression and Random Forest.
- Performed EDA to identify key risk factors such as age, cholesterol, and chest pain type.

EDUCATION

B.Tech in Computer Science Engineering

ITM University • Gwalior, MP • 2026 • CGPA : 8.2

Senior Secondary (PCM)

NEW Millenium school • MP • 2022 • Percentage: 84.3%

SKILLS

Languages: Python, C, SQL, HTML

Databases: MySQL, MongoDB

Machine learning: Supervised learning(Regression, Classification), Predictive Modeling

Deep learning: RNN, CNN, LSTM, BERT, (numpy, Pandas, matplotlib, seaborn, opencv, Tensorflow, Pytorch)

Data Analytics: Data Cleaning, Visualization, Matplotlib.
